Marketing Information Vacuum Brake Bleeder

Selling Tips

1. Q: Will it suit ABS systems?
A: Yes.
2. Q: Will it suit the majority of brake nipples?
A: Yes.

Technical

1. One man operation
2. Compact and portable design - fits into wheel arch area
3. Pulls 25" of vacuum at 100psi
4. When not in use, the unit can be sealed to eliminate accidental spillage

Marketing

1. Suits all braking systems (including ABS)
2. Extremely low cost - in fact lower priced than hand operated equivalents
3. Performance is equal to or better than that of all known competitors
4. Priced at a level where each mechanic in a garage could consider purchasing as opposed to one large shop unit being shared by all
