Marketing Information Vacuum Brake Bleeder

Selling Tips

1. Q: Will it suit ABS systems?
A: Yes
2. Q: Will it suit the majority of brake nipples?
A: Yes
3. Q: Can the unit be used with fluid types other than brake fluid?
A: Unlike most opposition units, Yes.

Technical

1. Pulls 25" vacuum at 100 psi.
2. Specially formulated seal compound now allows use with all fluid types. (eg degreasing and parts cleaning fluids, engine & transmission oils)
3. When not in use, the unit can be sealed to eliminate accidental spillage.
4. Over-fill check valve fitted.
5. Compact & portable design – fits under wheel arch area.
6. One-man operation.

Marketing

1. New larger 1.5 litre (3 pint) capacity container accommodates high volume usage.
2. Suits all braking systems (including ABS)
3. Extremely low cost when compared to equivalent bleeding methods. (Pressure & Hand-Operated)
4. Performance is equal to or better than all known competitors.
5. Pricing level allows individual technician purchases as opposed to a larger, more expensive shared workshop unit.
