

CamClamp Kits Timing Gear Clamps

70899 4pc set

Upgrade from the 70896

- Use on single, dual or quad overhead cam engines to hold valve timing during belt replacement.
- Ideal for diesel injection pump belt replacement.

Features

- Easy to use / Installs in seconds
- Miniature design works on engines with gear to cylinder head clearances from 5mm (1/4") to 25mm (1").
- Bolt extensions (included in kit) expand coverage to 35mm (1 3/8").
- Patented 'Uni-Fit' positive lock tooth design securely engages all cam gear sizes.
- Constructed from high strength industrial grade non-corrosive materials

Packaging

- 4 single CamClamps® (with 4 extensions)
- Impact resistant tray provides easy storage
- Space for storage of 70896 CamClamp®
