

UniTest

Cooling System Pressure Tester

Patented inflatable bladder attaches to radiator or header tank for system testing

The universal cooling system pressure tester that eliminates the need for system adapters

Header Tanks

Radiators

Unique patented sealing system

Features

- Universal attachment to radiator or header tanks – Suits automotive, commercial, heavy duty, marine, motorcycle
- Fits bayonet and threaded filler necks on radiators or header tanks
- Fluid drain tube allows coolant to be returned to the coolant reservoir or safely collected in a container for recycling.
- Identifies cooling system pressure leaks

Specifications

- Pressure pump: 0-30 psi (0-207kPa) gauge
- Bladder is cycle tested to over 1500 inflations
- Suits neck diameters up to 45mm (threaded or bayonet)
- Max pressure: 30 psi

PATENTED

Part No: 70800A
